# In the Spirit of Adventure: Polar Expedition Cruising

We started Poseidon Expeditions in 1999 with the simple belief that expedition cruising is the best way to see the polar regions. 22 years later, over 20 400 passengers agree: our unique style of travel offers you a genuine adventure served with healthy measures of education and relaxation. Your polar cruise experience on our small ships will be deeply personal and immensely satisfying.

### Our polar history in numbers:

seasons to the North Pole on board nuclear-powered icebreakers.

consecutive years operating *Sea Spirit* to the Arctic and Antarctica.

direct crossings between Svalbard and Franz Josef Land with *Sea Spirit*. passengers with dreams fulfilled in the Arctic and Antarctica.

### The expedition ship advantage

Our polar expedition ships are perfectly suited to take you in safety and comfort to the most extreme places in the world. Our ships are strong enough to meet the challenges of polar weather and ice while being small and nimble enough to navigate close to the action. You will get even closer with our Zodiac landing craft, an exclusive feature of expedition ships. With us, you will not only reach your polar destinations, you will experience them truly and deeply.

### Firsthand discovery with polar experts

Also at the heart of your expedition ship experience will be your access to world-class lecturers and seasoned expedition staff. In the lecture hall, you will learn from experts versed in every aspect of polar wildlife and history. On Zodiac excursions, you will explore the natural world in small groups alongside these same experts. Your personal interactions with naturalists and adventure guides will be a highlight of your expedition and a point of pride for all of our staff.

### Discerning international travelers

Adventurers from all walks of life have discovered the advantages of cruising in the polar regions with us. ### Water management

The wastewater produced on board Sea Spirit is treated using an internationally certified and approved sewage treatment system, which utilizes a chemical chlorination and dechlorination process, producing a clean and safe effluent suitable for discharging overboard.

### Waste management

Sea Spirit utilizes a grinding machine to reduce the volume of waste, which is later separated and discharged or unloaded ashore per local and international regulations. Waste aboard 50 Let Pobedy is treated and stored in a special low-temperature ecocompartment, eliminating any waste discharge into the ocean.

#### Fuel and emissions

For our polar cruises, Sea Spirit uses high-quality marine gas oil compliant with the limit set for sulfur by the International Maritime Organization. 50 Let Pobedy is propelled by electric motors using electricity generated by nuclear reactors, bringing CO2 emissions almost down to zero.

### Clean Up Svalbard

In Spitsbergen, we take part in the "Clean Up Svalbard" initiative coordinated by AECO. Joined by enthusiastic passengers, our staff collect the debris we find washed up on otherwise pristine beaches and transport it to Longyearbyen, where we deposit it in dedicated bins for proper processing.

### **Memberships**

### **IAATO**

As a member in good standing of the International Association of Antarctica Tour Operators (IAATO) since 2011, Poseidon Expeditions is committed to observing its standards of operations and requirements to practice sustainable travel to Antarctica.

Among other things, the Association of Arctic Expedition Cruise Operators (AECO) draws up guidelines on how to interact with wildlife, the Arctic ecosystem and local communities. We are honored to contribute as a member in good standing since 2011.

### Raising awareness

In lectures and briefings, our expert polar scientists and expedition leaders candidly discuss the issues facing Arctic and Antarctic ecosystems and what we can all do to help preserve wildlife in these fragile environments.

### Protecting nature

During shore excursions, we follow the guidelines established by AECO and IAATO to protect the local flora and fauna, including rigorous boot washing before and after landings. We strive to leave no lasting signs of our visit.

### Working with locals

Wherever we go, we support the communities we visit and we respect the indigenous stewards of the wild places we explore. During excursions and when provisioning, we ensure our activities contribute to local economies.

POLAR SEASONS
POLAR SEASONS

# Regions of the Arctic

During the boreal summer, from May through September, our expedition ship Sea Spirit moves throughout the Arctic regions, making the most of seasonal sea ice and wildlife distribution patterns. You will always find her in the right place, at the right time.

Svalbard Early summer

Svalbard's resident polar bears welcome the summer with a frenzy of hunting activity. Millions of migratory seabirds and marine mammals join the feast. Snowfields give way to flowering tundra while glaciers shimmer in 24-hour daylight. Starting in late May, receding sea ice allows navigation along the beautiful west coast of Spitsbergen.

Franz Josef Land High summer

From mid-July through August, peak summer conditions are perfect for exploring the wild High Arctic frontier of Franz Josef Land. Arctic seabirds and whales are at their most abundant and there is still plenty of sea ice around for polar bears and walrus. Meanwhile, melting snow reveals astonishing historical sites, literally frozen in time.

East Greenland
Late summer

In September, as Arctic nights become sufficiently dark, the magnificent fjords of East Greenland become the ideal place to watch mesmerizing northern lights displays. Days are still long enough to explore an outsized landscape of polychromatic mountains, blue glaciers, shining white icebergs and tundra valleys awash in autumn colors.

## **Seasons of Antarctica**

Expedition cruising in Antarctica takes place from late October through March, when the austral summer floods the region with light and food. The breeding cycles and feeding patterns of various wildlife species will affect your experience throughout the seasons.

Antarctic awakening
Early summer

Snow and ice are plentiful in October and November as millions of ocean-going penguins and seabirds return to Antarctica at the start of their breeding season. Courtship rituals take place and eggs are laid. In South Georgia, gigantic bull elephant seals battle ferociously for control of harems on the beaches. Newborn pups are soon to follow.

Feeding frenzy High summer

December and January deliver the warmest weather, nearly continuous daylight and frenetic wildlife activity. This is the best time to observe fluffy penguin chicks in their nests. Great numbers of whales arrive in Antarctica to begin non-stop feeding on swarms of krill. The beaches of South Georgia are jam-packed with king penguins and fur seals.

Coming of age Late summer

February and March are the prime months for interactions with curious penguin chicks and energetic seal pups. An abundance of young animals and their many predators set the stage for dramatic events and amazing photo opportunities. This is also the best time for incredible encounters with cooperative whales of all kinds.

### Raymond & Nivin, UK

My husband and I have been on 2 cruises with Poseidon - Antarctica in 2018 and the Arctic in 2019. Both expeditions were amazing, exciting, enjoyable and informative. We loved the variety of trips we made off the ship in the zodiacs. We saw many different types of wildlife, visited research stations, saw plants unique to the regions, beautiful icebergs and went through the ice with the zodiacs. Every day, there were talks on a variety of topics, which was another aspect to the trips that was both enjoyable and educational.

I had been aware of the opportunity to travel to the North Pole on a Russian nuclear icebreaker for about four years. Finally, I went with my son, who is in his mid-twenties, and we loved it. We saw at least a dozen polar bears, and in two cases, they approached right to the ship, one time with a cub. We also saw walruses from the Zodiac. The basaltic

columns covered with birds at Rubini Rock were amazing. At the pole, we especially enjoyed swimming (the "polar plunge") and a short hike. A baby seal climbed out of our swimming hole! My son had fun doing some Citizen Science with Lauren and Alex. Seeing the ship from the ice was very impressive.

### **Tilde** Jean-Claude, Belgium

For the second time, we booked a trip with Poseidon Expeditions. Our first experience on board of the *M/V Sea Spirit:* an extraordinary cruise to Franz Josef Land. A true exploration in a pristine wilderness. Super accommodation in spacious suites; excellent international cuisine. In short, we are ready have new experiences with Poseidon Expeditions.

### Richard, Malaysia

My 3rd expedition with Poseidon on the Sea Spirit to Svalbard proved to be as exciting as the first two. Polar bears on the hunt were the main feature. The people with giant lenses that extended almost to the polar bears themselves shared super close-up films and photos of the chase when it was either too far away for my zoom lens, or our Zodiac was not in position to catch the footage. The final score was Seals & Reindeer 2, Polar bears 0. I was cheering for the seals and reindeer.

### Michelle, United States

This was the first expedition for the Sea Spirit around the UK. The team of experts and expedition leader were top notch. The Sea Spirit is a fantastic ship – I cannot say enough about it – the suites are elegant, spacious, and so comfortable compared to others I have been on. The trip was run very professionally and always with safety in mind. The food was superb. We really enjoyed the countries and islands that we visited. All-in-all - excellent!

Please also note that there is no specialized medical assistance available in these regions. Passengers with certain medical/health issues may not be appropriate for this type of expedition and are advised to exercise appropriate caution. Our medical information form lists a number of these conditions.
- 16. Pre-departure forms. Prior to boarding, specific passenger information is required by Operator for passenger safety and for international reporting regulations. Required information must be completed in the forms provided by Operator and submitted at least 60 days prior to departure. Final documents cannot be issued for passengers whose information has not been received.
- 17. Passenger Medical Information. We require all passengers to submit basic medical information prior to departure. Upon receipt of that basic medical information, specific physical conditions may necessitate additional documentation from a passenger's physician certifying fitness to travel

on a polar expeditions voyage. If additional medical confirmation is requested, boarding will not be allowed absent receipt of that confirmation. Operator has a pregnancy policy that women are welcome with explicit doctor's permission and having signed a specific waiver. Pregnancy policies of carriers (ship owners, airlines, bus companies, hotels, etc.) may also apply. Please note that medical information will, of necessity, be available to designated Operator's staff.

18. Important Notice: Please be advised that prospective passengers must carefully consider whether their health condition is adequate for participation in the expedition cruise taking place in remote and hard-to-reach regions, where emergency evacuation is not always available. Passengers must complete the provided medical information form and provide the Operator with permission from their physician in case of serious or chronic medical conditions. If the passenger decides to participate in the cruise in spite of a medical condition and/or the concerns of their physician and their condition deteriorates while aboard, requiring emergency evacuation that the passenger's insurance company does not recognize as appropriate and/or legitimate, all evacuation expenses will be borne by the passenger.

Operator has a pregnancy policy that women are welcome with explicit doctor's permission and having signed a specific waiver. Pregnancy policies of carriers [ship owners, airlines, bus companies, hotels, etc.] may also apply. Please note that medical information will, of necessity, be available to designated Operator's staff. Operator has a pregnancy policy that women are welcome with explicit doctor's permission and having signed a specific waiver. Pregnancy policies of carriers [ship owners, airlines, bus companies, hotels, etc.] may also apply. Please note that medical information will, of necessity, be available to designated Operator's staff.

Please note that regardless of general eligibility there may be instances where environmental conditions require a level of fitness/mobility. In these cases, individual participation in the landing(s) in question may be restricted by the Captain, Expedition Leader, or ship's doctor.

19. Medical Evacuation and Repatriation Insurance.
All passengers are required to carry valid evacuation
and repatriation insurance which must contain medical
and evacuation coverage.

As any potential evacuation from the polar regions can cost up to US\$200,000 for the Arctic and Antarctica cruises, we recommend that no policy carries less than this amount of coverage. As part of pre-departure forms Operator will require information as to the insurance company, policy number, amount of coverage and 24-hour contact number. Any risks, not covered by the insurance policy provided, are to be covered by passengers at his/her disposal and at his/her own expense.

**20. Responsibility.** The payment of a deposit or full payment for a reservation on this tour shall constitute consent to all the provisions contained herein.

Operator or its agents are not responsible for any costs or penalties relating to air transport or other services that are cancelled. Operator is not liable for failure to provide the services or accommodations offered to the extent that such services or accommodations cannot be provided due to force majeure or other circumstances beyond its control.

Operator is a qualified tour operator that organizes and administers its polar voyages. Operator will provide services in conjunction with local operators and air and sea operators. The designated operator(s), in turn, acts only as an agent for any transportation carrier, hotel, ground operator, or other suppliers of services

connected with these tours ("other providers"), and the other providers are solely responsible and liable for providing their respective services. The passenger tickets in use by the carriers shall constitute the sole contract between the carriers and the passenger; the carriers are not responsible for any act, omission, or event during the time participants are not aboard their conveyances.

Operator and its designated service providers shall not be held liable for (a) any damage to, or loss of, property or injury to, or death of, persons occasioned directly or indirectly by an act or omission of any other provider, including but not limited to any defect in any aircraft, watercraft, or vehicle operated or provided by such other provider; and (b) any loss or damage due to delay, cancellation, or disruption in any manner caused by the laws, regulations, acts or failures to act, demands, orders, or interpositions of any government or any subdivision or agent thereof, or by acts of God, strikes, fire, flood, war, rebellion, terrorism, insurrection, sickness, quarantine, epidemics, theft, or any other cause(s) beyond their control.

The participant waives any claim against Operator for any such loss, damage, injury, or death. In the event of Itinerary change due to any unforeseen circumstances or due to force majeure Operator is not to be held liable for any costs incurred by passengers in this case and no refunds or price adjustments are possible.

By registering for our voyage, the participant certifies that he/she does not have any mental, physical, or other condition or disability that would create a hazard for him/herself or other participants. Operator and its designated tour operator reserve the right in their sole discretion to accept, decline to accept, or remove any participant from a voyage. Operator reserves the right, without penalty, to make changes in the published itinerary whenever, in their judgment, conditions warrant, or if they deem it necessary for the comfort, convenience, or safety of participants.

If a passenger misses any scheduled sailing of the vessel from any port or place, including any stopover, Operator shall not be liable for any costs, expenses or damages incurred by the passenger as a result of his/her action and no refund of fare shall be granted.

**21. Baggage.** Baggage and personal effects are at all times the sole responsibility of the participant.

22. Limitations. Passengers are not permitted to bring or have onboard any pets or animals, firearms, flammable or hazardous items, controlled or prohibited substances or drugs, contraband or items prohibited by any country or port to be visited.

#### Acceptance of the Terms & Conditions.

Acceptance of the initial services to be provided on the trip shall constitute an acceptance by the trip member of these terms and conditions. On advancement of deposit to Operator, the depositor therefore agrees to be bound by the above-recited Terms & Conditions. Above-recited Terms & Conditions are valid at the time of going to press.
